-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## Status

- 1) ☒ Responsive to communication(s) filed on 09 March 2004.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.

1. This application contains claims directed to the following patentably distinct species of the claimed invention:

1) The embodiment as shown in figures 1A and 1B with a gooseneck faucet, two manual valves and two latching solenoids as called for in claim 6.

2) The embodiment as described on page 4, lines 13-20, but not shown in the figures, with a gooseneck faucet, no manual valves, only one latching solenoid and a temperature sensing element with two servo-valves as called for in claim 7.

3) The embodiment as described on page 4, line 21, to page 5, line 13, but not shown in the figures, with a gooseneck faucet and a microprocessor controlled system (replacing the manual valves or the temperature sensor) as called for in claims 8-14.

4) The embodiment as described on page 4, lines 9-13, and page 4, lines 1-8, but not shown in the figures, with a faucet that is not a gooseneck faucet with the sensor mounted to the sink as called for in claim 3, and with two manual valves and two latching solenoids as called for in claim 6.

5) The embodiment as described on page 4, lines 9-20, but not shown in the figures, with a faucet that is not a gooseneck faucet with the sensor mounted to the sink as called for in claim 3, no manual valves, only one latching solenoid and a temperature sensing element with two servo-valves as called for in claim 7.

6) The embodiment as described on page 4, lines 9-13, and on page 4, line 21, to page 5, line 13, but not shown in the figures, with a faucet that is not a gooseneck faucet with the sensor mounted to the sink as called for in claim 3, and a

microprocessor controlled system (replacing the manual valves or the temperature sensor) as called for in claims 8-14.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claim 1 is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

2. A telephone call was made to Mr. Jay H. Maioli on 6/29/2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to J. Casimer Jacyna whose telephone number is 571-272-4889. The examiner can normally be reached on Wed. thru Fri. 9AM-7PM, Mon. 7AM-1PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Justine Yu can be reached on 703-272-4835. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
